# Dash Rx

## THE ABILITY TO VIEW ALL YOUR PHARMACY OPERATIONS IN ONE CONVENIENT PLACE!

### Forget having to navigate through multiple screens to get the information you need.

Dash-Rx allows each member of your team to easily view, customize, and access immediate needs in one place.

Using a large screen TV mounted in your facility, Dash-Rx allows each member of your team to easily view, customize, and access immediate needs in one place.

- Pharmacists can see what kits need to be made or what doses need to be filled.
- The Pharmacy Staff can quickly recognize what doses need to be drawn, and any QC's that need to be done.
- Drivers can see when containers are ready to ship, and the times of the latest delivered containers.

All of these important operations can be viewed from a screen that is completely customizable to meet your needs.

Get a real-time snapshot of all of your pharmacy operations with Dash-Rx.

Enterprise solutions coming soon.
